Calling Number Display

Wholesalecomms's Calling Number Display facility (CND) lets persons who receive phone calls identify who is calling them by displaying the caller's number. CND forms part of the ordinary telephony service that you purchase from Wholesalecomms.

Unless you have chosen to block your phone number, or have a silent line, CND will usually cause your phone number to be displayed (or logged) - locally and sometimes internationally - on a receiving caller's phone. In other words, CND will enable the disclosure of your phone number to receiving callers (and to other network operators) locally and internationally, unless you take the above measures.

For further information on CND (as well as on CND blocking), please call 1300 891 445.

Integrated Public Number Database

Wholesalecomms is required by law to maintain an industry-wide database of phone numbers, known as the Integrated Public Number Database (IPND). The IPND is used to publish public number directories, provide directory assistance, operate emergency call services and safeguard national security. The IPND is not used for other purposes.

To satisfy its legal obligations, Wholesalecomms is required to provide your phone number (as well as other personal information such as your name, address and service location) to the IPND. All other telecommunications carriers are required to do the same.

If you have a silent line, your number will not be published in public number directories or be disclosed by directory assistants, even though it must be provided to the IPND for the above uses.
